BROWNS SPRING / SUMMER SEED MIXES

Spring Forage Blend

Pasja 11, Puna 11, Red Clover, White Clover
Consists of...

Pasja 11: Is an early maturing (6-8 weeks) hybrid leafy turnip that provides high dry matter yield.

Puna 11: Is a perennial chicory that delivers premium quality feed and high dry matter production.

Red Clover: Highly palatable quality feed that is ideal for all classes of livestock.

White Clover: Is a high yielding medium-leaf white clover that has a high stolon density and excellent persistence.

Sowing rate is 8 Kg/ha

Miller Rape Mix

Titan Forage Rape Millet

Shirohie Millet: The most popular millet variety, that is cost effective in providing fast food and lots of it. Suitable for direct feeding to sheep, cattle or silage and hay.

Titan Forage Rape: Early maturing bred for aphid and virus tolerance. Titan is high yielding and highly palatable and is known as the rape stock preferred to eat.

Sowing rate is 13 Kg/ha

Turnips

Barkant

Barkant forage turnips are a palatable and energy rich feed. They are one of the highest yielding tankard bulb turnips available on the market. A well grown crop has the potential to increase MS (milk solids) /acre by 20%.

Sowing rate is 1-4 Kg/ha

Appin Leafy Turnip

Appin leafy turnip was bred to provide multiple grazing and for fast, vigorous establishment with quick maturity (50-80 days). It is firmly anchored in the ground for minimum wastage.

Sowing rate is 1-2 Kg/ha
