

Browns Bronze Dairy Pellets

Browns Bronze Dairy Pellet is a milker ration containing 13% Crude Protein and 12.5 MJ of Metabolisable Energy. This ration is suitable to feed 3-6kg/head/day when energy is limiting milk production.

Browns Bronze Dairy Pellet is a complete feed containing an ideal blend of energy and protein contributing feed sources and adequately blended with rumen buffers, macro & trace minerals, lime, salt and vitamins.

Browns Bronze Dairy Pellet contains:

Acid BufTM: Helps to stabilise the rumen pH aiding in the prevention of rumen acidosis.

Extra additives and medications can be added on your request (eg Rumensin, Eskalin)

WHAT ARE THE INGREDIENTS AND SPECIFICATIONS?

Analysis	(DM Basis)
Nutrient	Amount
Crude Protein (Min.)	13%
Metabolisable Energy (min.)	12.5%
Crude Fibre (max)	13.3%
Crude Fat (max)	2.5%
Max. Salt	1%
Calcium (min.)	2%
Phosphorus (min.)	0.8%
Starch (min)	48%
