

Browns Silver Dairy Pellets

Browns Silver Dairy Pellet is a milker ration containing 15% Crude Protein and 12.8 MJ of Metabolisable Energy. This ration is suitable to feed 4-6kg/head/day.

Browns Silver Dairy Pellets is especially desirable when pasture quality is lacking protein and high in fibre, hence lowering the energy density thus limiting milk production.

Browns Silver Dairy Pellet is a complete feed containing an ideal blend of energy and protein.

Browns Silver Dairy Pellet can have extra additives and medications added on your request. (eg Rumensin, Organic Trace Minerals, Acid Buff, Anti-Bloat, Zinc Oxide, Diamond VXPC & Elitox etc.)

WHAT ARE THE INGREDIENTS AND SPECIFICATIONS?

Analysis	(DM Basis)
Nutrient	Amount
