

Browns Standard Wheat Mix

Browns Standard Wheat Mix has been developed to balance early and mid lactation cows with adequate quantity and quality pasture available. High levels of essential minerals supplied by Browns Micro / Macro pellet ensure seasonal pasture production and herd health challenges are adequately addressed.

Browns Standard Wheat Mix is high in starch (min 52%) which complements rapidly growing spring pastures which are supplying 12 mj/ME and 30%+ C/P.

Recommended Feed Rate: 5kg + / c / Day

WHAT ARE THE INGREDIENTS AND SPECIFICATIONS?

Analysis	(DM Basis)
Nutrient	Amount
Crude Protein (Min.)	15%
Metabolisable Energy (min.)	12.5%
Starch (min)	52%
Crude Fat (max.)	2.5%
N.D.F (min)	13%
Max. Salt	1%
Calcium (min.)	1.5%
Phosphorus (min.)	0.5%
