

Browns Gold Dairy Pellets

Browns Gold Dairy Pellet is a milker ration containing 16% Crude Protein and 13 MJ of Metabolisable Energy. This ration is suitable to feed 4-6kg/head/day when energy intake is limiting milk production.

Browns Gold Dairy Pellet is a complete feed containing an ideal blend of energy and protein contributing feed ingredients and includes rumen buffers, macro & trace mineral, lime, salt and vitamins.

Browns Gold Dairy Pellet contains:

Acid BufTM: Helps to stabilise the rumen pH aiding in the prevention of rumen acidosis.

Extra additives and medications can be added on your request. (eg Rumensin, Eskalin, Organic Trace Minerals, Anti-Bloat, Zinc Oxide etc.)
