

BROWNS STOCK FEED

PTY. LTD.

BEEF FINISHER MIX

Browns Beef Finisher Mix is a formulated mix of cereal grains and protein sources required by the animal for peak muscle development. The specially formulated mix of starches is designed to deliver a slow fermenting energy for a longer period of time, therefore reducing the chance of acidosis. Protein sources such as canola meal and seed are used to deliver by-pass protein (UDP) and also adequate rumen degradable protein (RDP).

Transition Feeding Plan.

Days 0-7	Days 8-14
Offer 1-2kg grain	Offer 3-4kg grain
Adlib fibre	Adlib fibre

Always Ensure:

- Wet pellets are removed and discarded
